PETITION TO OPPOSE

INTEGRATED FIXED TOWERS
ON THE TOHONO O‘ODHAM NATION

United States Customs and Border Protection says the Integrated Fixed Surveillance Towers it plans to build on the Tohono O’odham Nation will have no significant impact on the environment or the people. This is not the case. The towers will have a very significant and long-lasting impact on the land and on the people of the Tohono O’odham Nation.

The Finding of No Significant Impact CBP released does not accurately represent the towers’ impact. It also does not take into consideration any of the concerns expressed by residents of the Gu-Vo District. Join us in petitioning to **reject CBP’s Environmental Assessment and oppose the construction of the Integrated Fixed Towers in the Gu-Vo District**. Protect O’odham patrimony and sovereignty.
